## **GUIDELINES FOR ABSTRACT SUBMISSION FOR ILF CONFERENCES**

The following guidance is intended to help those submitting abstracts to present them in a clear and concise framework to facilitate assessment by the Conference Scientific Committee. It is recognised that some papers may not fit the structure exactly, so some flexibility is appropriate. While recognising there is limited space, it would be useful to include one or two key references in the abstract. Where appropriate, results (even preliminary) should be included.

### Categories should include:

- Aims of study
- Methods
- Results
- Conclusions

### **Abstract conditions**

The reviewing committee will designate abstracts submitted for either poster or oral presentations.
